ABOUT NHS NUMBERS

Your NHS Number is unique to you and is used to help healthcare staff and service providers match you to your health records. It is an important step towards providing you with safer patient care. Everyone registered with the NHS in England and Wales has their own NHS Number. It can also be found on any Prescription.

Your NHS Number is the 10-digit number which is printed on your NHS medical card. An example of an NHS Number is 450 557 7104.
